

PROJECT 10073 RECORD

1. DATE AND TIME GROUP Dec 67 12/1020Z	2. LOCATION Suffield, Ohio
3. SOURCE Civilian	10. CONCLUSION INSUFFICIENT DATA FOR EVALUATION
4. NUMBER OF OBJECTS 1	
5. LENGTH OF OBSERVATION 1 minute	11. BRIEF SUMMARY AND ANALYSIS The observer sighted a bright round object that was traveling at a high speed toward the south. The observer stated that he heard a beep and also flashing lights. Comments: A 117 was sent to the observer. Such things as the size (angular) of the object; the number and color of the lights; and how bright the object was in comparison to some common astro object, such as venus, is not known. The 117 was not returned. Since the observer was in a house during the sighting it is doubtful that the "beep" is related to the sighting. It appears to have been either an airplane or a satellite., however without additional information it is impossible to tell.

AF Form 117

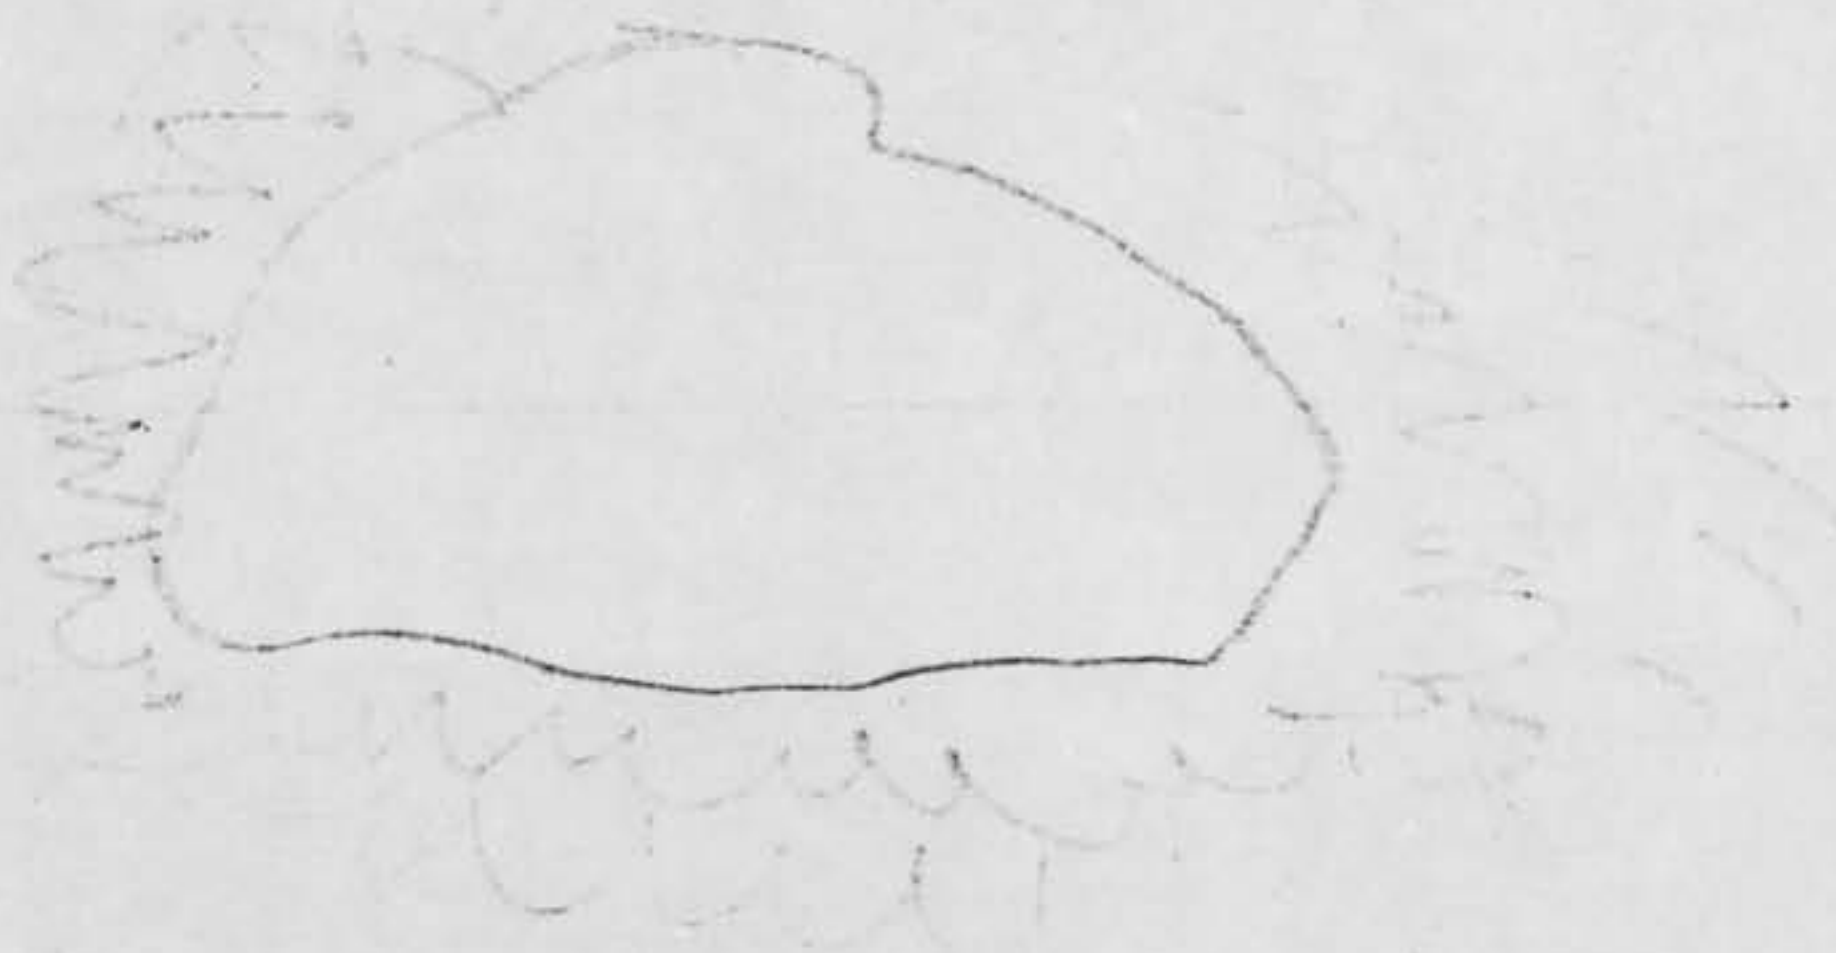

I was at the southwest corner
of my back bedroom, in
Suffield, Ohio

20 minutes after 5:00

The clouds saw were streaks

Date Dec 12 '67

It was round, & was very
bright.

I could not see through it
because it was so bright.
It was about 1/2 of the size of the
moon. It was very bright - like
the full moon was at night.

It started to rain
and was looking good
